**PHILADELPHIA**  
**WATER**  
— DEPARTMENT —

# Impact

**Every day, PWD goes to work on behalf of all Philadelphians.**

We protect public health and the environment by providing clean, safe water. Our crews, facilities, and infrastructure can be found in every corner of the City. Our employees are a part of the communities they serve, and take immense pride in the difference they make in millions of lives. We need your voice— your passion, your drive, your commitment— to help us create a better Philadelphia.

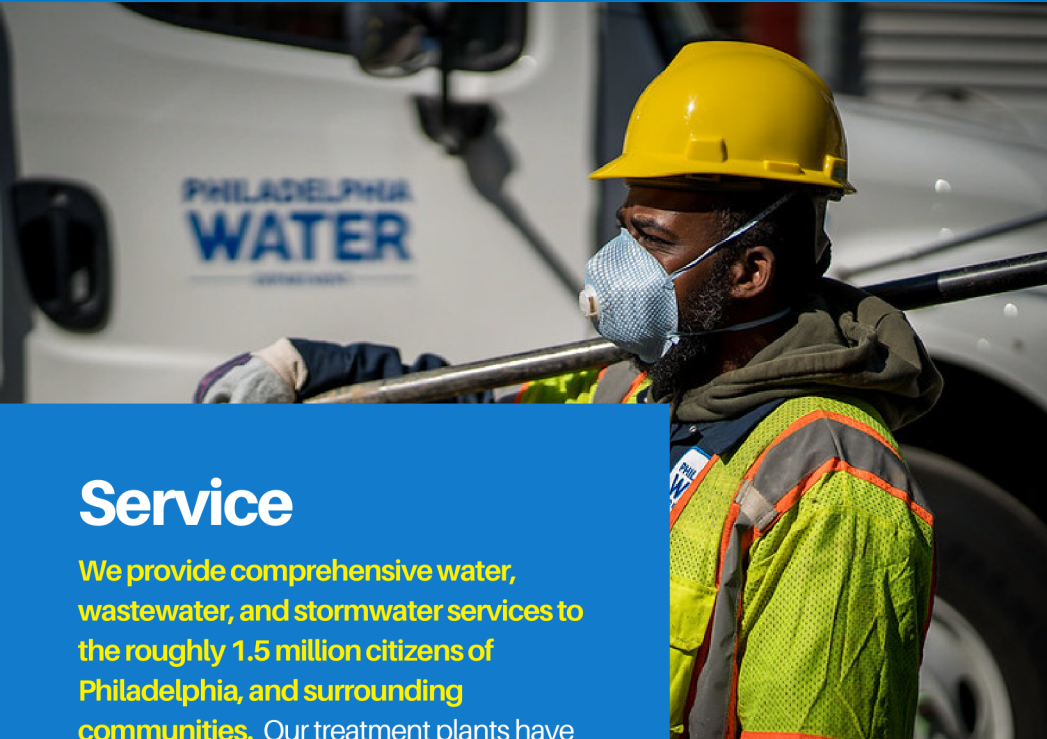

# Growth

**We pride ourselves on providing sustainable, lifelong careers.** While with us, our employees have gone to school, bought homes, raised families, traveled the world, pushed themselves, and led others. We offer promotional opportunities, tuition reimbursement, and professional development.

# Service

**We provide comprehensive water, wastewater, and stormwater services to the roughly 1.5 million citizens of Philadelphia, and surrounding communities.** Our treatment plants have won numerous awards for their water quality, and we lead the industry in green stormwater infrastructure.

# Balance

**We're invested in both your career, and in helping you maintain a happy, healthy life.** We offer 12 paid holidays, ample paid time off, comprehensive health benefits, a defined pension, wellness programs, paid parental leave, commuter discounts, and more.
