

Work #: 41136

February 2026

Dear Philadelphia Resident,

Construction is starting soon for a Philadelphia Water Department (PWD) **infrastructure project** in your neighborhood. This project is called **N 21st / N Lambert (PWD Project #41136 | water.phila.gov/41136)**. The contractor assigned to this job is **Carusone Construction**.

Construction is Starting in February 2026

Construction dates may change. We will alert you before any planned service interruptions. Construction is currently expected to take place from **February 2026 – Mid 2027**.

Street	From	To	Type of Work
N. 21st St.	Stenton Ave.	W. Godfrey Ave.	New Water Main, New Sewer, & Flood Relief Control

N. Lambert St.	W. Godfrey Ave.	Church Ln.	New Water Main
N. Woodstock Ave.	Chelten Ave.	W. Laveer St.	New Water Main
N. 11th St.	W. Tabor Rd.	W. Clarkson Ave.	New Sewer Lining

On-site Contact Information

Look for construction team members (wearing visible PWD clothing) regularly on site:

- **Project Inspector:** Prakash Shah, 267-319-2322
- **Construction Engineer:** Anoop George, 215-301-5494

Construction Impacts

- Typical construction hours are from 7:00 AM to 4:00 PM but can vary seasonally.
- Residents should expect disruptions of water service for **house connections to new pipes** and when **water main connections are completed**. Residents will be notified for expected shutoffs.
- Street parking and road access during hours of construction may be restricted. Temporary “No Parking” signs will be installed as needed for safety and construction.
- Pedestrian access, trash collection, and deliveries will be maintained.
- Check with SEPTA for any possible detours: www.septa.org.

Reason for Project

- **New water mains** to increase service reliability and reduce emergency breaks
 - **Lead service line replacement** for eligible properties with confirmed lead service lines discovered during water main installation. (Customers will be contacted and are required to sign a separate permission form.)
- **New sewers or sewer lining work** to increase system capacity and reduce clogs
