

Randy E. Hayman, Water Commissioner

June 8, 2022

Dear Philadelphia Water Customer,

I am writing to let you know that the Philadelphia Water Department (PWD) is planning two construction projects in your neighborhood. The planned projects will take place along **24th Street and along Snyder and McKean Streets near your property.**

This project is a part of the City of Philadelphia's *Green City, Clean Waters* initiative – a program that keeps pollution out of rivers and creeks by using green tools to absorb stormwater that would normally overflow into our waterways during heavy storms. For more information about the program, visit: water.phila.gov/green-city/.

As part of the **24th Street Greening (#50210)** and **Snyder Ave Greening (#50207)** projects, PWD is planning to install the following green tools at the following locations:

- **Stormwater Infiltration Trenches on McKean St from S 22nd St to S Bonsall St**
- **Stormwater Tree Trench on McKean St from S Bonasll St to S 24th St**
- **Stormwater Bumpout on McKean St from S 23rd St to S Hemberger St**
- **Stormwater Tree Trenches on Snyder Ave from S Woodstock to 23rd St**
- **Stormwater Raingardens on medians along 24th St from Point Breeze Ave to Passyunk Ave**

Construction is expected to begin in approximately **2-6 months**. However, **please note that this is an estimate and the construction start date can be earlier or later than the anticipated timeline.**

More information about the specific green tools planned for your area can be found on the online project pages:

- 24th Street Raingardens: water.phila.gov/50210
- Snyder/McKean Greening: water.phila.gov/50207

A follow up letter will be sent closer to the time of construction. In the meantime, please feel free to reach out to both myself and Amy Hopf (Amy.Hopf@phila.gov) with any questions about the project.

Sincerely,
Danielle Stollak
