

November 3, 2025

Dear PWD Customer, Property Owner, or Current Occupant,

This is the first in a series of construction letters to let you know that the Philadelphia Water Department (PWD) is **planning a green stormwater infrastructure (GSI) construction project** in your neighborhood.

This project is called **Glenwood Green Acres (PWD Project #50270)**. The contractor assigned to this job is Seravalli, Inc.

Construction Expected in 2026

This project is in the pre-construction phase, and **construction is expected to begin in approximately 6-9 months**. *This is an estimate*, and the start date can be earlier or later than this anticipated timeline.

Reason for Project

This project will build green stormwater infrastructure (GSI) systems to increase the service reliability and climate resilience of your neighborhood. GSI systems capture stormwater to protect local waterways by preventing combined sewer overflows.

GSI systems will be built in the public right of way (streets & sidewalks) and/or on public parcels. Public GSI projects like this one are built through our 25-year stormwater management plan called **Green City, Clean Waters**. Learn more here: water.phila.gov/green-city.

Stay updated on project details here: water.phila.gov/projects/p50270/

A follow-up letter will be sent closer to the time of construction. Please reach out to our Construction Outreach inbox at Water.Construction@phila.gov with any questions.

If you want to receive email notifications from PWD, please visit water.phila.gov/projects-news to register.

Sincerely,

Philadelphia Water Department1101 Market Street, 6th Floor

Philadelphia, PA 19107

E: Water.Construction@phila.gov
