

November 2025

Dear PWD Customer, Property Owner, or Current Occupant,

This is the first in a series of letters to let you know that we are preparing a **green stormwater infrastructure project** in your neighborhood.

This project is called **Wynnefield Ave Corridor (PWD Project #50310)**. The contractor assigned to this job is **Gessler Construction**.

Construction is Estimated to Start in Spring 2026

Construction dates may change. An additional letter will be sent when construction is scheduled. PWD will alert you before planned service interruptions.

Reason for Project

This project will build green stormwater infrastructure (GSI) systems to increase the service reliability and climate resilience of your neighborhood. GSI systems capture stormwater to protect local waterways by preventing combined sewer overflows.

GSI systems will be built in the public right of way (streets & sidewalks) and/or on public parcels. Public GSI projects like this one are built through our 25-year stormwater management plan called **Green City, Clean Waters**. Learn more here: water.phila.gov/green-city.

Stay updated on project details here: water.phila.gov/50310

A follow-up letter will be sent closer to the time of construction. Please reach out to our Construction Outreach inbox at Water.Construction@phila.gov with any questions.

If you want to receive email notifications from PWD, please visit water.phila.gov/projects-news to register.

Sincerely,

Philadelphia Water Department
1101 Market Street, 6th Floor
Philadelphia, PA 19107

Map Updated: October 2025

Planned Green Stormwater Infrastructure (GSI) Improvements

Planned Infrastructure Improvements

- New Water Main
- New Sewer

This work will improve water and sewer services, and help protect waterways by reducing combined sewer overflows. Concept(s) subject to change.

For more information reach out to Olivia.Boon@phila.gov or visit water.phila.gov/green-city.
