

April 2026

Dear Philadelphia Resident,

The Philadelphia Water Department (PWD) is **preparing an infrastructure project** in your neighborhood. This project is called **Haworth Horrocks (PWD Project #50324)**. The contractor assigned to this job is **Bencardino Excavating**.

**Construction is Estimated to Start Early 2027**

We estimate work will start in 6-9 months. Construction dates may change. An additional letter will be sent when construction is scheduled. PWD will alert you before planned service interruptions.

**Reason for Project**

This project will build green stormwater infrastructure (GSI) systems to increase the service reliability and climate resilience of your neighborhood. GSI systems capture stormwater to protect local waterways by preventing combined sewer overflows.

GSI systems will be built in the public right of way (streets & sidewalks) and/or on public parcels. Public GSI projects like this one are built through our 25-year stormwater management plan called **Green City, Clean Waters**. Learn more here: [water.phila.gov/green-city](http://water.phila.gov/green-city).

**Stay updated on project details on the PWD project page:** [water.phila.gov/50324](http://water.phila.gov/50324)

A follow-up letter will be sent closer to the time of construction. Contact [Water.Projects@phila.gov](mailto:Water.Projects@phila.gov) with questions. Call the Water Department hotline at (215) 685-6300 for any emergencies.

# Haworth Horrocks

## Planned PWD Infrastructure Projects

Project Number: 50324  
Project Page: [water.phila.gov/projects/p50324](http://water.phila.gov/projects/p50324)  
Map Updated: January 2026

### Planned Green Stormwater Infrastructure (GSI) Improvements

Tree Trench

Rain Garden

Bumpout

This work will improve water and sewer services, and help protect waterways by reducing combined sewer overflows. Concept(s) subject to change.
