

# Green City Clean Waters

The City of Philadelphia's Program for Combined Sewer Overflow Control  
A Long Term Control Plan Update

Submitted by the Philadelphia Water Department  
September 1, 2009

# TABLE OF CONTENTS

## Section 1: Introduction and Background

<b>1.1</b>	THE CITY OF PHILADELPHIA COMBINED SEWER OVERFLOW (CSO) LONG TERM CONTROL PLAN UPDATE (LTCPU).....	1-1
<b>1.1.1</b>	Philadelphia Water Department .....	1-2
<b>1.2</b>	EVOLUTION OF PWD’S CSO IMPLEMENTATION COMMITMENTS.....	1-3
<b>1.2.1</b>	Document Implementation of the NMC (Phase 1).....	1-3
<b>1.2.2</b>	Technology Based Capital Improvements - Long Term CSO Control Plan (Phase 2) .....	1-4
<b>1.2.3</b>	Watershed-Based Planning and Implementation (Phase 3).....	1-5
<b>1.2.3.1</b>	Integrated Watershed Management Plans (IWMPs), River Conservation Plans (RCPs) and Source Water Protection Plans (SWPPs) ..	1-6
<b>1.2.3.1.1</b>	Integrated Water Management Plans.....	1-6
<b>1.2.3.1.2</b>	River Conservation Plans .....	1-11
<b>1.2.3.1.3</b>	Source Water Protection Plans .....	1-12
<b>1.2.3.1.4</b>	Additional Plans that Further the City’s Greening Goals .....	1-13
<b>1.2.3.2</b>	Creation of Watershed Partnerships and Stakeholder Networks .....	1-13
<b>1.2.3.3</b>	Detailed Watershed-Based Monitoring and Assessment .....	1-14
<b>1.2.3.4</b>	Fluvial Geomorphologic Assessment (FGM) and Streamside Infrastructure Inventory.....	1-16
<b>1.2.3.5</b>	Wetlands Assessments.....	1-17
<b>1.2.3.6</b>	Aerial Infrared Thermography.....	1-17
<b>1.2.4</b>	Stormwater Management Requirements and Incentives.....	1-18
<b>1.2.4.1</b>	Stormwater Regulation Changes.....	1-18
<b>1.2.4.2</b>	Commitment to Act 167 Stormwater Management Planning.....	1-19
<b>1.2.4.3</b>	Storm Flood Relief Program.....	1-20
<b>1.2.4.4</b>	Parcel-Based Billing – Rate Reallocation.....	1-21
<b>1.2.5</b>	Stormwater Management Requirements and Incentives.....	1-22
<b>1.2.5.1</b>	Establishment of the Waterways Restoration Team (WRT) .....	1-27
<b>1.2.6</b>	Additional Programs in Support of PWD’s Watershed Planning Initiatives .....	1-27
<b>1.2.6.1</b>	Watershed Information Center.....	1-28
<b>1.2.6.2</b>	The History of Philadelphia's Watersheds and Sewers .....	1-29
<b>1.2.6.3</b>	The History of Philadelphia's Watersheds and Sewers .....	1-29
<b>1.3</b>	PWD LTCPU .....	1-33

## Section 2: Public Participation

<b>2.1</b>	PUBLIC PARTICIPATION INTRODUCTION .....	2-1
<b>2.1.1</b>	Overwhelming Public Support .....	2-1
<b>2.1.2</b>	The Demand .....	2-1
<b>2.1.3</b>	Partnerships, Plans and Participation.....	2-1
<b>2.1.4</b>	Watershed Goals .....	2-2
<b>2.1.5</b>	Education and Outreach.....	2-2
<b>2.1.6</b>	Diversified Partnership and Public Participation are Keys to Success .....	2-3
<b>2.1.6.1</b>	CSO LTCP Update Public Participation Program.....	2-3
<b>2.1.6.2</b>	CSO LTCP Update Public Participation Program Team (Team) .....	2-3

2.1.6.3	Green City, Clean Waters .....	2-3
<b>2.2</b>	<b>PUBLIC INVOLVEMENT DURING THE DEVELOPMENT OF THE</b>	
	<b>DRAFT CSO LTCPU .....</b>	<b>2-4</b>
2.2.1	Advisory Committee.....	2-4
2.2.1.1	Advisory Committee Membership .....	2-4
2.2.1.2	Advisory Committee Meetings .....	2-5
2.2.1.3	Targeted Advisory Committee Meetings.....	2-6
2.2.2	Public Meetings .....	2-7
2.2.2.1	Notification.....	2-7
2.2.2.2	Public Meetings, Series #1 .....	2-9
2.2.2.3	Public Meetings, Series #2.....	2-10
2.2.2.4	Public Meetings, Series #3.....	2-11
2.2.2.5	Public Meetings, Series #4.....	2-16
2.2.2.6	Targeted Public Meetings.....	2-18
2.2.3	Watershed Partnerships .....	2-18
2.2.3.1	Tookany/Tacony-Frankford Watershed Partnership .....	2-18
2.2.3.2	Darby Cobbs Watershed Partnership .....	2-22
2.2.3.3	Delaware Direct Watershed Partnership.....	2-24
2.2.3.4	Schuylkill Action Network (SAN) .....	2-25
2.2.4	Existing Educational Programs .....	2-25
2.2.4.1	Model Neighborhoods .....	2-26
2.2.4.1.1	PENNVEST.....	2-30
2.2.4.2	Green Neighborhoods through Green Streets Survey .....	2-31
2.2.4.3	Facebook .....	2-33
2.2.4.4	Watershed Partnership Story .....	2-33
2.2.4.5	Green Stormwater Infrastructure Tours.....	2-33
2.2.4.6	Water Quality Council .....	2-34
2.2.4.7	Storm Flood Relief.....	2-35
2.2.5	Public Information .....	2-35
2.2.5.1	Green Cities, Clean Waters Information Fair .....	2-35
2.2.5.2	Green Cities, Clean Waters Exhibit.....	2-37
2.2.5.3	Fairmount Water Works Interpretive Center.....	2-39
2.2.5.4	Stormwater Best Management Practices (BMP) Recognition Program.....	2-39
2.2.5.5	Urban Watersheds Revitalization Conference .....	2-41
2.2.6	Floatables Control Outreach ~ Skimming Vessel and Pontoon Vessel .....	2-42
2.2.7	Signage, Websites & Informational Materials.....	2-43
2.2.7.1	CSO Outfall Notification Signage.....	2-43
2.2.7.2	CSO Identification Signage.....	2-44
2.2.7.3	Websites .....	2-45
2.2.7.3.1	PhillyRiverInfo .....	2-45
2.2.7.3.2	Green Cities, Clean Waters (CSO Long Term Control Plan Update) .....	2-46
2.2.7.3.3	RiverCast.....	2-46
2.2.7.3.4	Public Outreach & Education .....	2-47

	2.2.7.3.5 CSOcast .....	2-47
	2.2.7.3.6 Rain Barrel Program.....	2-48
	2.2.7.3.7 Handout Materials.....	2-48
2.3	PUBLIC INVOLVEMENT DURING RELEASE OF DRAFT CSO LTCPU.....	2-49
	2.3.1 Distribution of Information.....	2-49
	2.3.2 Media Publicity.....	2-50
2.4	OPPORTUNITIES FOR PUBLIC COMMENT ON DRAFT CSO LTCPU SUMMARY REPORT .....	2-50
2.5	PUBLIC COMMENTS ON DRAFT CSO LTCPU .....	2-51
	2.5.1 Comments on Draft CSO LTCPU Summary Report .....	2-51
	2.5.2 Approach to Addressing Comments on Draft CSO LTCPU Summary Report.....	2-52
2.6	FUTURE PUBLIC PARTICIPATION.....	2-53

**Section 3: Characterization of Current Conditions**

3.1	MONITORING AND DATA COLLECTION .....	3-1
	3.1.1 Overview of Input Data Collection .....	3-1
	3.1.2 Meteorological Monitoring Data .....	3-2
	3.1.2.1 PIA Precipitation Data Sources.....	3-2
	3.1.2.2 PIA Precipitation Data Processing and QA/QC.....	3-2
	3.1.2.3 PWD Precipitation Data Sources.....	3-2
	3.1.2.4 PWD Precipitation Data Processing and QA/QC.....	3-4
	3.1.2.5 Calibrated Radar Rainfall Data Sources.....	3-4
	3.1.2.6 Radar Rainfall Data Processing and QA/QC.....	3-5
	3.1.3 Municipal Collector Sewer System Data .....	3-5
	3.1.3.1 Water Pollution Control Plant (WPCP) Influent Data .....	3-5
	3.1.3.2 Permanent Collection System Level Monitoring .....	3-6
	3.1.3.3 Portable Flow and Level Monitoring.....	3-6
	3.1.3.4 Outlying Community Contributing Flow Meter .....	3-15
	3.1.3.5 National Oceanographic and Atmospheric Agency (NOAA) Tide.....	3-17
	3.1.3.6 Ongoing Combined Sewer System Monitoring .....	3-17
	3.1.4 Receiving Water Monitoring .....	3-18
	3.1.4.1 Overview.....	3-18
	3.1.4.1.1 Cobbs Creek and Tacony-Frankford Creek.....	3-20
	3.1.4.1.2 Tidal Schuylkill and Delaware Rivers .....	3-21
	3.1.4.2 Historical Data .....	3-21
	3.1.4.2.1 Tacony-Frankford Creek.....	3-21
	3.1.4.2.2 Cobbs Creek .....	3-24
	3.1.4.2.3 Tidal Schuylkill and Delaware Rivers .....	3-25
	3.1.4.3 Recent Data .....	3-27
	3.1.4.3.1 Tacony-Frankford.....	3-27
	3.1.4.3.2 Cobbs Creek .....	3-31
	3.1.4.3.3 Tidal Delaware River.....	3-40
	3.1.4.3.4 Tidal Schuylkill River .....	3-43
	3.1.4.4 Continued Monitoring of Receiving Water .....	3-46

3.1.5	PWD Interceptor System and Regulator Structure Data.....	3-49
3.1.6	Geographic Information System (GIS) Data.....	3-49
3.1.7	Improvement Cost Data.....	3-51
3.1.8	Socio/Economic Data .....	3-51
3.1.8.1	Tacony-Frankford Watershed.....	3-51
3.1.8.2	Cobbs Creek Watershed .....	3-52
3.1.8.3	Tidal Delaware River Watershed.....	3-52
3.1.8.4	Schuylkill River Watershed.....	3-52
3.2	PWD WASTEWATER COLLECTION AND TREATMENT SYSTEM .....	3-61
3.2.1	Contributing Area Description .....	3-61
3.2.2	Collection System Configuration.....	3-62
3.2.2.1	Northeast Drainage District.....	3-64
3.2.2.2	Southeast Drainage District .....	3-69
3.2.2.3	Southwest Drainage District .....	3-72
3.2.3	Current Collection System Capacities.....	3-78
3.2.3.1	Northeast Drainage District.....	3-78
3.2.3.2	Southeast Drainage District .....	3-79
3.2.3.3	Southwest Drainage District .....	3-79
3.2.4	Wastewater Treatment Plant Descriptions .....	3-80
3.2.4.1	Northeast Water Pollution Control Plant .....	3-80
3.2.4.2	Southeast Water Pollution Control Plant.....	3-84
3.2.4.3	Southwest Water Pollution Control Plant.....	3-87
3.2.5	Current Collection System CSO Response to Rainfall.....	3-90
3.3	CONTRIBUTING MUNICIPALITIES.....	3-92
3.3.1	Contributing Area Description .....	3-92
3.4	REGIONAL WATERSHED AND RECEIVING WATER CHARACTERIZATION.....	3-97
3.4.1	Receiving Water Quality Standards and Use Designations .....	3-97
3.4.1.1	Tacony-Frankford Creek .....	3-97
3.4.1.2	Cobbs Creek .....	3-98
3.4.1.3	Tidal Delaware and Tidal Schuylkill Rivers, Including Tributaries .....	3-99
3.4.2	Receiving Water Quality and Watershed Characterization.....	3-104
3.4.2.1	Tookany/Tacony-Frankford Creek Watershed Characterization .....	3-106
3.4.2.1.1	TTF Creek Hydrologic Characterization.....	3-107
3.4.2.1.2	TTF Water Quality Analysis.....	3-113
3.4.2.1.3	Biological Assessment of the TTF Watershed .....	3-151
3.4.2.1.4	Habitat Assessment of the TTF Creek Watershed .....	3-158
3.4.2.2	Darby-Cobbs Creek Watershed Characterization.....	3-160
3.4.2.2.1	Darby-Cobbs Creek Hydrologic Characterization .....	3-165
3.4.2.2.2	Darby-Cobbs Creek Water Quality Analysis.....	3-168
3.4.2.2.3	Biological Assessment of the Darby-Cobbs Creek Watershed ..	3-201
3.4.2.2.4	Habitat Assessment of the Darby-Cobbs Creek Watershed .....	3-212
3.4.2.3	Delaware River Basin and Delaware Direct Watershed Characterization .....	3-218

3.4.2.3.1	Delaware River Basin Hydrologic Characterization.....	3-220
3.4.2.3.2	Delaware River Water Quality Analysis.....	3-224
3.4.2.3.3	Biological Assessment of the Delaware Direct Watershed.....	3-246
3.4.2.3.4	Habitat Assessment of the Delaware Direct Watershed.....	3-247
3.4.2.4	Combined Sewer Area of Schuylkill River Watershed	
Characterization .....		3-250
3.4.2.4.1	Schuylkill River Hydrologic Characterization .....	3-255
3.4.2.4.2	Schuylkill River Water Quality Analysis.....	3-257
3.4.2.4.3	Biological Assessment of the Schuylkill River .....	3-283
3.4.3	Sensitive Areas .....	3-287
3.4.4	Pollutant Loads .....	3-290
3.4.4.1	Background and Methods .....	3-290
3.4.4.2	Tookany/Tacony-Frankford Pollutant Load .....	3-291
3.4.4.3	Cobbs Creek Pollutant Loads .....	3-291
3.4.4.4	Tidal Delaware Pollutant Loads .....	3-292
3.4.4.5	Tidal Schuylkill Pollutant Loads .....	3-292
3.5	METEOROLOGICAL CHARACTERIZATION.....	3-293
3.5.1	Background.....	3-293
3.5.2	Long-Term Meteorological Conditions.....	3-293
3.5.3	Local Meteorological Conditions .....	3-297
3.5.4	Average Annual Precipitation Record .....	3-297
3.5.5	Temperature Data.....	3-298
3.5.6	Snowfall Data .....	3-299
3.5.7	Evaporation Data.....	3-300

**Section 4: Problem Analysis and Goal Setting**

4.1	OVERVIEW .....	4-1
4.2	CSO CONTRIBUTION TO WATER QUALITY CONDITIONS.....	4-2
4.2.1	Tookany/Tacony-Frankford Creek Watershed Problem Summary .....	4-2
4.2.2	Cobbs Creek Watershed Problem Summary .....	4-7
4.2.3	The Delaware River Watershed Problem Summary .....	4-12
4.2.4	The Schuylkill River Watershed Problem Summary.....	4-15
4.3	REGULATORY COMPLIANCE FRAMEWORK.....	4-18
4.3.1	NPDES Permits, National CSO Control Policy, and Consent Order.....	4-18
4.3.2	Planning Approach.....	4-18
4.3.3	Policy and Guidance on the Watershed Approach.....	4-19
4.3.4	Policy and Guidance on Green Infrastructure .....	4-20
4.4	WATER QUALITY GOALS.....	4-21
4.4.1	Introduction: LTCPU and the Integrated Watershed	
Management Framework.....		4-21
4.4.2	Review of Integrated Watershed Management Plan Goals .....	4-22
4.4.3	LTCPU Goals.....	4-26

**Section 5: Overview of the Long Term Control Plan Update (LTCPU)**

**5.1 MODEL DEVELOPMENT PROCESS AND TOOLS** ..... 5-1

**5.2 OVERVIEW OF ANALYSIS TOOLS AND METHODS** ..... 5-2

**5.2.1 Precipitation Analysis** ..... 5-2

**5.2.1.1 NetSTORM**..... 5-2

**5.2.2 Monitored Flow Analysis**..... 5-3

**5.2.2.1 QA/QC Spreadsheets** ..... 5-3

**5.2.2.2 SHAPE Software**..... 5-3

**5.2.2.3 RTK Analysis Spreadsheets** ..... 5-4

**5.2.2.4 RTK Template Analysis Spreadsheet**..... 5-5

**5.2.2.5 RTK Seasonal and Monthly Variation Spreadsheet**..... 5-5

**5.2.3 Special Analyses** ..... 5-6

**5.2.3.1 Capture Program**..... 5-6

**5.2.3.2 SAS End-of-Pipe (EOP) Processing Tool**..... 5-7

**5.2.3.3 Parallel Interceptor Transmission Spreadsheet**..... 5-7

**5.2.3.4 Parallel Interceptor with Satellite Treatment Spreadsheet**..... 5-7

**5.2.4 Hydrologic and Hydraulic Analysis Tools**..... 5-8

**5.2.4.1 Storm Water Management Model Version 4 (SWMM4)** ..... 5-8

**5.2.4.2 RUNOFF Module**..... 5-8

**5.2.4.3 EXTRAN Module**..... 5-8

**5.2.5 GIS Analysis Tools (ArcTools)**..... 5-9

**5.2.6 Alternatives Costing Tool (PWD Capital Projects Cost Estimating Tool)** ..... 5-9

**5.2.6.1 Input Formats and Organization**..... 5-10

**5.2.6.2 Land-Based Stormwater Management Module Overview** ..... 5-11

**5.2.6.3 Pump Station Facility Module Overview**..... 5-12

**5.2.6.4 Open Cut Pipe Module Overview** ..... 5-12

**5.2.6.5 Short-Bore Tunnel (Trenchless) Module Overview**..... 5-13

**5.2.6.6 Conventional Tunnels (Storage/Conveyance) Module Overview**..... 5-13

**5.2.6.7 Tank Storage Module Overview** ..... 5-13

**5.2.6.8 Retention Treatment Basins Module Overview** ..... 5-14

**5.2.7 Economic Impact Model**..... 5-14

**5.3 BASELINE MODEL DEVELOPMENT**..... 5-14

**5.3.1 Hydrologic Model Development**..... 5-14

**5.3.1.1 Subcatchment Area**..... 5-15

**5.3.1.2 Subcatchment Width**..... 5-15

**5.3.1.3 Percent DCIA** ..... 5-15

**5.3.1.4 Slope** ..... 5-16

**5.3.1.5 Manning’s Roughness Coefficient**..... 5-17

**5.3.1.6 Depression Storage**..... 5-17

**5.3.1.7 Pervious Area Infiltration Parameters** ..... 5-17

**5.3.1.8 RDI/I** ..... 5-17

**5.3.1.9 Outlying Community User Input Hydrographs**..... 5-20

**5.3.1.10 Baseflow Ranges**..... 5-20

**5.3.1.11 Precipitation Input Data**..... 5-21

**5.3.1.12 Evaporation Input Data**..... 5-21

**5.3.1.13 Temperature Input Data and Snowmelt**..... 5-21

**5.3.2 Hydraulic Model Development** ..... 5-22

**5.3.2.1 Pipes**..... 5-22

5.3.2.2	Junctions (Nodes).....	5-23
5.3.2.3	Orifices .....	5-23
5.3.2.4	Weirs.....	5-24
5.3.2.5	Pumps .....	5-24
5.3.2.6	Outfalls.....	5-24
5.3.2.7	Regulators .....	5-24
5.3.2.8	Model Simplification.....	5-25
5.3.3	Model Calibration/Validation.....	5-26
5.3.3.1	Hydrologic Model Calibration .....	5-26
5.3.3.2	Precipitation Data.....	5-26
5.3.3.3	CSS Trunk Monitor Data.....	5-27
5.3.3.4	Directly Connected Impervious Area (DCIA).....	5-28
5.3.3.5	RTK Distribution.....	5-28
5.3.3.6	Hydraulic Model Validation.....	5-28
5.3.3.7	Measures of “Goodness-of-Fit” .....	5-29
5.3.3.8	Validation Results.....	5-29
5.3.3.8.1	Southeast Drainage District .....	5-29
5.3.3.8.2	Southwest Drainage District.....	5-31
5.3.3.8.3	Northeast Drainage District.....	5-37
5.4	LTCPU ALTERNATIVES MODEL DEVELOPMENT .....	5-38
5.4.1	Land-Based Controls.....	5-45
5.4.1.1	General Low Impact Development Model Approach .....	5-45
5.4.2	Infrastructure-Based Controls.....	5-48
5.4.2.1	Sewer Separation – Highway and Waterfront Disconnection .....	5-48
5.4.2.2	Deep Tunnels.....	5-48
5.4.2.2.1	SEDD Tunnel .....	5-51
5.4.2.2.2	NEDD Tunnel.....	5-51
5.4.2.2.3	SWDD Tunnel.....	5-52
5.4.2.3	Parallel Interceptors – Transmission Systems.....	5-52
5.4.2.4	Satellite High Rate Treatment.....	5-54
5.4.2.5	Retention Treatment Basins (RTBs).....	5-57
5.4.2.6	Off-Line Storage.....	5-58
5.4.2.7	In-Line Storage .....	5-59
5.5	OVERVIEW OF THE ALTERNATIVES ANALYSIS PROCEDURE .....	5-59
5.5.1	Overview .....	5-59
5.5.2	Problem Identification and Goal Setting.....	5-60
5.5.3	Development and Screening of Management Options.....	5-60
5.5.4	Development and Initial Screening of Alternatives.....	5-61
5.5.5	Detailed Evaluation of Alternatives .....	5-61
5.5.5.1	Performance (CSO Control Level) .....	5-61
5.5.5.2	Cost .....	5-61
5.5.5.3	Affordability and Financial Capability.....	5-61
5.5.5.4	Triple Bottom Line: Quantifiable Benefits and External Costs .....	5-61
5.5.5.5	Qualitative Factors .....	5-64
5.5.6	Selection of a Recommended Alternative.....	5-65
5.5.7	Refinement of the Recommended Alternative.....	5-66
5.6	IMPLEMENTATION .....	5-66
5.6.1	Adaptive Management .....	5-66

5.6.2 Adaptive Management Strategy Requirements..... 5-66

**Section 6: Land-Based Control Measures (Source Controls)**

**6.1 IDENTIFICATION AND DESCRIPTION OF CONTROL MEASURES..... 6-1**

- L.1 Flow Reduction: Catch Basin Modifications ..... 6-5**
- L.2 Flow Reduction: Sump Pump Disconnect ..... 6-5**
- L.3 Flow Reduction: Catch Basin and Storm Inlet Maintenance ..... 6-5**
- L.4 Flow Reduction: Illicit Connection Control..... 6-5**
- L.5 Flow Reduction: Roof Leader Disconnect Program..... 6-6**
- L.6 Flow Reduction: Street Storage (Catch Basin Inlet Control) ..... 6-6**
- L.7 Flow Reduction: Offload Ground Water Pumpage ..... 6-6**
- L.8 Flow Reduction: Stream Diversion..... 6-6**
- L.9 Flow Reduction: Groundwater Infiltration Reduction ..... 6-6**
- L.10 Flow Reduction: Reduction of Contractual Flow..... 6-7**
- L.11 Low Impact Development/Redevelopment/Retrofit: Require Existing Resources Inventory, Sketch Plan, Initial Meeting ..... 6-7**
- L.12 Low Impact Development/Redevelopment/Retrofit: Require Integrated Site Design..... 6-7**
- L.13 Low Impact Development/Redevelopment/Retrofit: Require Post-Construction Stormwater Management ..... 6-7**
- L.14 Low Impact Development/Redevelopment/Retrofit: Post-Construction Inspection and Enforcement..... 6-8**
- L.15 Low Impact Development/Redevelopment/Retrofit: Demonstration Projects on Public Lands..... 6-8**
- L.16 Low Impact Development/Redevelopment/Retrofit: Large-Scale Implementation on Public Lands..... 6-8**
- L.17 Low Impact Development/Redevelopment/Retrofit: Street Trees and Street Greening ..... 6-8**
- L.18 Low Impact Development/Redevelopment/Retrofit: Revise Stormwater Rate Structure..... 6-8**
- L.19 Low Impact Development/Redevelopment/Retrofit: Stormwater Management Incentives for Retrofit..... 6-9**
- L.20 Public Education: Water Efficiency..... 6-9**
- L.21 Public Education: Catch Basin Stenciling ..... 6-9**
- L.22 Public Education: Community Cleanup and Volunteer Programs ..... 6-9**
- L.23 Public Education: Pet Waste Education ..... 6-9**
- L.24 Public Education: Public Notification and Signage..... 6-10**
- L.25 Public Education: Litter and Dumping Education..... 6-10**
- L.26 Public Education: School-Based Education ..... 6-11**
- L.27 Good Housekeeping: Loading, Unloading, and Storage of Materials ..... 6-11**
- L.28 Good Housekeeping: Spill Prevention and Response ..... 6-11**
- L.29 Good Housekeeping: Street Sweeping Programs ..... 6-12**
- L.30 Good Housekeeping: Vehicle & Equipment Management..... 6-12**
- L.31 Good Housekeeping: Private Scrapyard Inspection and Enforcement ..... 6-12**

L.32	Good Housekeeping: Employee Training .....	6-12
L.33	Good Housekeeping: Record Keeping and Reporting.....	6-12
L.34	Good Housekeeping: Flow Diversion and Exposure Minimization Structures .....	6-13
L.35	Good Housekeeping: Responsible Bridge and Roadway Maintenance.....	6-13
L.36	Pollution Prevention: Require Industrial Pretreatment.....	6-13
L.37	Pollution Prevention: On-Lot Disposal (Septic System) Management .....	6-13
L.38	Pollution Prevention: Household Hazardous Waste Collection .....	6-13
L.39	Pollution Prevention: Oil/Water Separator/WQ Inlets .....	6-13
L.40	Pollution Prevention: Industrial Stormwater Pollution Prevention.....	6-14
L.41	Pollution Prevention: Litter and Illegal Dumping Enforcement.....	6-14
L.42	Pollution Prevention: Require Construction-Phase Stormwater/E&S Controls....	6-14
6.2	DETAILED EVALUATION OF GREEN INFRASTRUCTURE FEASIBILITY .....	6-14
6.2.1	Performance Criteria .....	6-14
6.2.2	Study Methods .....	6-17
6.2.3	Results .....	6-19
6.2.4	Feasible Implementation Range .....	6-22
6.3	SCREENING RESULTS .....	6-25

**Section 7: Water-Based Control Measures**

7.1	IDENTIFICATION AND DESCRIPTION OF CONTROL MEASURES.....	7-1
W.1	Instream: Dam Modification/Removal.....	7-1
W.2	Instream: Daylight Orphaned Storm Sewers.....	7-2
W.3	Instream: Stream Cleanup and Maintenance .....	7-2
W.4	Instream: Channel Stabilization and Habitat Restoration .....	7-2
W.5	Instream: Channel Realignment and Relocation.....	7-3
W.6	Instream: Plunge Pool Removal.....	7-3
W.7	Instream: Improvement of Fish Passage.....	7-3
W.8	Instream: Instream Aeration .....	7-3
W.9	Instream: Sidestream Aeration.....	7-3
W.10	Riparian: Constructed Wetlands along Stream Corridors.....	7-3
W.11	Riparian: Wetland Restoration Along Tidal Rivers.....	7-4
W.12	Riparian: Enhance Stream Corridor Recreational and Cultural Resources.....	7-4
W.13	Riparian: Wetland Improvement .....	7-4
W.14	Riparian: Invasive Species Management.....	7-4
W.15	Riparian: Reforestation .....	7-4
7.2	SCREENING CRITERIA .....	7-4
7.3	SCREENING RESULTS .....	7-5

**Section 8: Infrastructure-Based Control Measures**

8.1	IDENTIFICATION AND DESCRIPTION OF CONTROL MEASURES .....	8-1
I.1	Nine Minimum Controls .....	8-2
I.2	Operation and Maintenance: Inspection and Cleaning of Combined Sewers.....	8-6
I.3	Operation and Maintenance: Combined Sewer Rehabilitation.....	8-6

<b>I.4</b>	Operation and Maintenance: Regulator/Pump Station Inspection/Maintenance/Repairs .....	8-7
<b>I.5</b>	Operation and Maintenance: Outfall Maintenance Program .....	8-7
<b>I.6</b>	Operation and Maintenance: House Lateral Repairs .....	8-7
<b>I.7</b>	Sewer Separation: Permitted Discharge to Receiving Water for Waterfront Properties .....	8-7
<b>I.8</b>	Sewer Separation: Separation of Sanitary Sewage and Stormwater on Development Sites .....	8-8
<b>I.9</b>	Sewer Separation: Separate Street Runoff from Combined System .....	8-8
<b>I.10</b>	Sewer Separation: Complete Separation into Sanitary and Storm Sewer Systems Based .....	8-8
<b>I.11</b>	Sewer Separation: Permitted Discharge to Receiving Water for Waterfront Interstate Highways .....	8-9
<b>I.12</b>	Outfall and Regulator Consolidation .....	8-9
<b>I.13</b>	Storage: Instream Storage Technologies .....	8-9
<b>I.14</b>	Storage: In-Line Storage in Interceptor or Trunk Sewer .....	8-9
<b>I.15</b>	Storage: Earthen Basins .....	8-11
<b>I.16</b>	Storage: Off-Line Covered Storage Basins .....	8-11
<b>I.17</b>	Storage: Off-Line Open Storage Basins .....	8-11
<b>I.18</b>	Storage/Transmission: Deep Tunnels .....	8-12
<b>I.19</b>	Storage/Transmission: Real Time Control .....	8-12
<b>I.20</b>	Transmission: Parallel Interceptors .....	8-12
<b>I.21</b>	Transmission: Remove Flow Bottlenecks .....	8-12
<b>I.22</b>	Transmission: Diversion of Trunk Flow Directly to WPCP .....	8-12
<b>I.23</b>	Treatment at Discharge Point: Swirl Concentrators .....	8-12
<b>I.24</b>	Treatment at Discharge Point: Vortex Separators .....	8-12
<b>I.25</b>	Treatment at Discharge Point: Disinfection .....	8-13
<b>I.26</b>	Treatment at Discharge Point: High Rate Treatment .....	8-13
<b>I.27</b>	Treatment at Discharge Point: Screens .....	8-15
<b>I.28</b>	Treatment at Discharge Point: Netting .....	8-15
<b>I.29</b>	Treatment at Discharge Point: Booms .....	8-15
<b>I.30</b>	Treatment at Discharge Point: Baffles .....	8-15
<b>I.31</b>	Treatment in Receiving Water: Debris Skimming Vessels .....	8-16
<b>I.32</b>	Treatment at Existing WPCP: Expand Primary Treatment Capacity .....	8-16
<b>I.33</b>	Treatment at Existing WPCP: Expand Secondary Treatment and Disinfection Capacity .....	8-16
<b>I.34</b>	Treatment at Existing WPCP: Flow Equalization .....	8-16
<b>I.35</b>	Treatment at Existing WPCP: Expansion of Wet Weather Treatment Capacity ...	8-16
<b>8.2</b>	SCREENING CRITERIA .....	8-37
<b>8.3</b>	SCREENING RESULTS .....	8-38

**Section 9: Development and Comparison of Alternatives**

**9.1 ALTERNATIVE APPROACHES TO MEETING LTCPU GOALS** ..... 9-1

**9.1.1 Complete Sewer Separation** ..... 9-2

**9.1.2 Green Infrastructure with Targeted Traditional Infrastructure**..... 9-2

**9.1.3 Green Infrastructure with Increased Transmission and Treatment Capacity** ..... 9-4

**9.1.4 Large-Scale Centralized Storage Alternative**..... 9-5

**9.1.5 Large-Scale Satellite Treatment Alternative** ..... 9-6

**9.2 BENEFITS AND EXTERNAL COSTS OF ALTERNATIVE APPROACHES**..... 9-6

**9.2.1 Green Stormwater Infrastructure Enhances Recreation and Restores Ecosystems**. 9-7

**9.2.2 Green Stormwater Infrastructure Improves Neighborhoods**..... 9-8

**9.2.3 Green Stormwater Infrastructure Improves Public Health** ..... 9-9

**9.2.4 Green Stormwater Infrastructure Saves Energy and Offsets Climate Change** ..... 9-11

**9.2.5 Qualitative Factors of Green Stormwater Infrastructure** ..... 9-11

**9.3 TOOKANY-TACONY/FRANKFORD CREEK WATERSHED** ..... 9-13

**9.3.1 Green Infrastructure with Targeted Traditional Infrastructure**..... 9-14

**9.3.2 Green Infrastructure with Increased Transmission and Treatment Capacity** ..... 9-15

**9.3.3 Large-Scale Centralized Storage Alternative**..... 9-17

**9.3.4 Large-Scale Satellite Treatment Alternative** ..... 9-19

**9.4 COBBS CREEK WATERSHED** ..... 9-21

**9.4.1 Green Infrastructure with Targeted Traditional Infrastructure**..... 9-21

**9.4.2 Green Infrastructure with Increased Transmission and Treatment Capacity** ..... 9-22

**9.4.3 Large-Scale Centralized Storage Alternative**..... 9-24

**9.4.4 Large-Scale Satellite Treatment Alternative** ..... 9-26

**9.5 DELAWARE RIVER DIRECT WATERSHED**..... 9-28

**9.5.1 Green Infrastructure with Targeted Traditional Infrastructure**..... 9-28

**9.5.2 Green Infrastructure with Increased Transmission and Treatment Capacity** ..... 9-29

**9.5.3 Large-Scale Centralized Storage Alternative**..... 9-31

**9.5.4 Large-Scale Satellite Treatment Alternative** ..... 9-33

**9.6 SCHUYLKILL RIVER DIRECT WATERSHED** ..... 9-35

**9.6.1 Green Infrastructure with Targeted Traditional Infrastructure**..... 9-35

**9.6.2 Green Infrastructure with Increased Transmission and Treatment Capacity** ..... 9-36

**9.6.3 Large-Scale Centralized Storage Alternative**..... 9-38

**9.6.4 Large-Scale Satellite Treatment Alternative** ..... 9-40

**Section 10: Recommend Plan Elements ..... 10-1**

**10.1 SUMMARY OF THE ALTERNATIVES EVALUATION** ..... 10-1

**10.1.1 Evaluating Within a Watershed Planning Context** ..... 10-1

**10.1.1.1 Environmental Implementation Targets**..... 10-2

**10.1.2 Affordability and Financial Capability Limits Our Choice**..... 10-4

**10.1.3 Green Stormwater Infrastructure: An Emerging Trend**..... 10-4

**10.1.4 Triple Bottom Line: Environmental, Social, and Economic Benefits** ..... 10-7

10.1.5	Qualitative Evaluation Factors .....	10-10
10.2	SELECTED ALTERNATIVE .....	10-12
10.2.1	Green Stormwater Infrastructure.....	10-13
10.2.2	Stream Corridor Restoration and Preservation; Achievement of Targets A and B.....	10-34
10.2.3	Improving Dry Weather Water Quality, Aesthetics and Recreation.....	10-35
10.2.3.1	TTF Creek Watershed.....	10-35
10.2.3.2	Cobbs Creek Watershed .....	10-38
10.2.3.3	Delaware Direct Watershed .....	10-40
10.2.3.4	Tidal Schuylkill .....	10-44
10.2.4	Restoring Living Resources.....	10-46
10.2.4.1	TTF Creek Watershed.....	10-48
10.2.4.2	Cobbs Creek Watershed .....	10-49
10.2.4.3	Delaware and Schuylkill Rivers.....	10-50
10.3	PERFORMANCE OF THE SELECTED ALTERNATIVE .....	10-53
10.4	INITIATING THE GREEN STORMWATER INFRASTRUCTURE PROGRAM.....	10-56
10.5	MEETING THE PROGRAM COST.....	10-58
10.6	ADAPTIVE MANAGEMENT WITH DECISION POINTS .....	10-59
10.6.1	Adaptive Management Rationale.....	10-59
10.6.2	Adaptive Management Action Plan and Interim Milestones .....	10-60
10.6.3	Meeting the Affordability Challenge.....	10-61
10.6.4	Monitoring and Evaluation Plan .....	10-61
10.6.4.1	Project Progress Monitoring .....	10-63
10.6.5	Green Stormwater Infrastructure Maintenance .....	10-64
10.6.6	Assessment of Attainability of Water Quality Standards.....	10-65
10.7	IMPLEMENTATION SCHEDULING .....	10-66

**Section 11: Financial Capability**

11.1	INTRODUCTION .....	11-1
11.2	PHASE 1 – CALCULATION OF THE RESIDENTIAL INDICATOR.....	11-1
11.2.1	Key Assumptions.....	11-2
11.2.2	Projected Revenue Requirements and Rate Impacts.....	11-4
11.2.3	Financing Assumptions .....	11-7
11.2.4	Grant Availability.....	11-7
11.3	PHASE 2 – CALCULATION OF PERMITTEE FINANCIAL CAPABILITY INDICATORS.....	11-7
11.4	ADDITIONAL SOCIO-ECONOMIC TRENDS IN THE PWD SERVICE AREA .....	11-11
11.5	THE FINANCIAL CAPABILITY MATRIX.....	11-15
11.6	CONCLUSIONS AND IMPLICATIONS .....	11-15

**Section 12: Post-Construction Monitoring**

**12.1** INTRODUCTION ..... 12-1  
**12.2** ADMINISTRATIVE MEASURES ..... 12-1  
**12.3** CONTROL PERFORMANCE MEASURES ..... 12-2  
    **12.3.1** Source Control Performance Monitoring ..... 12-2  
    **12.3.2** Sewer System Monitoring..... 12-2  
**12.4** RECEIVING WATER QUALITY MEASURES..... 12-3

**References**

section 5.4.4 figure 5 page 96) ..... 3-183

**3-65** Dry and wet weather nitrate concentrations at the 9 monitoring sites  
(D-C CCR 2004 section 5.4.8.5 figure 21 page 109) ..... 3-186

**3-66** Dry and wet weather ammonia concentrations at the 9 monitoring sites  
(D-C CCR 2004 section 5.4.8.4 figure 22 page 110) ..... 3-187

**3-67** Dry and wet weather total phosphorus concentrations at the 9 monitoring sites  
(D-C CCR 2004 section 5.4.8.8 figure 23 page 113) ..... 3-189

**3-68** Estimated dry weather N:P ratios at the 9 monitoring sites (D-C CCR 2004  
section 5.4.8.9 figure 24 page 114) ..... 3-190

**3-69** Dry weather metals indicator status update (D-C CCR 2004 section 6.7  
figure 32 page 128) ..... 3-194

**3-70** Wet weather metals indicator status update (D-C CCR 2004 section 6.7  
figure 33 page 1289) ..... 3-195

**3-71** Dry weather fecal coliform and E. coli concentrations at the 9 monitoring sites,  
2003 (D-C CCR 2004 section 5.4.2.1 figure 8 page 88) ..... 3-197

**3-72** Dry weather fecal coliform indicator status update (D-C CCR 2004 section 6.5  
figure 28 page 123) ..... 3-199

**3-73** Geometric means of fecal coliform concentrations in dry weather  
(D-C CCR 2004 section 6.5 figure 29 page 124) ..... 3-199

**3-74** Wet weather fecal coliform indicator status update (D-C CCR 2004  
section 6.5 figure 30 page 125) ..... 3-200

**3-75** Geometric means of fecal coliform concentrations in wet weather  
(D-C CCR 2004 section 6.5 figure 31 page 126) ..... 3-200

**3-76** Benthic impairment in Darby-Cobbs Creek Watershed (D-C CCR 2004  
section 6.4 figure 27 page 121) ..... 3-202

**3-77** Modified Hilsenhoff Biotic Index (HBI) scores of assessment sites in  
Darby-Cobbs Creek Watershed (D-C CCR 2004 section 5.1.1 figure 1 page 47) ..... 3-204

**3-78** Pollution tolerance values (%) of macroinvertebrate assemblages at each assessment  
site in Darby-Cobbs Watershed (D-C CCR 2004 section 5.1.1 figure 2 page 49) ..... 3-205

**3-79** Trophic structure of fish assemblages in the Darby-Cobbs Creek Watershed  
(D-C CCR 2004 section 5.2.1 figure 3 page 56) ..... 3-208

**3-80** Pollution tolerance values at the monitoring sites in Darby-Cobbs Creek Watershed  
(D-C CCR 2004 section 5.2.2.1 figure 4 page 58) ..... 3-209

**3-81** Index of Biological Integrity (IBI) scores at the nine assessment sites in  
Darby-Cobbs Creek Watershed (D-C CCR 2004 section 5.2.2.1 figure 5 page 59) ..... 3-210

**3-82** Fish assessment of the Darby-Cobbs Creek Watershed, 2003 (D-C CCR 2004  
section 6.4 figure 26 page 120) ..... 3-211

**3-83** Stream channels and aquatic habitat assessment in the Darby-Cobbs Creek  
Watershed, 2003 (D-C CCR 2004 section 6.2 figure 25 page 118) ..... 3-214

**3-84** Habitat quality of 17 assessment sites in Darby-Cobbs Creek Watershed.  
Values are represented as percent comparability to reference conditions  
(D-C CCR 2004 section 5.3.4.1.3 figure 7 page 69) ..... 3-215

## Philadelphia Combined Sewer Overflow Long Term Control Plan Update

**LIST OF TABLES**

<u>Table #</u>	<u>Page #</u>
<b>Section 1: Introduction and Background</b>	
1-1	Summary of Phase II Capital Projects..... 1-4
1-2	Watershed Management Planning Status..... 1-12
1-3	PWD Supported Watershed Stakeholder Partnerships ..... 1-15
1-4	Monitoring and Comprehensive Characterization Report Status for the City’s Watersheds ..... 1-16
1-5	Areas Surveyed with Aerial Infrared Thermography ..... 1-18
1-6	Completed Land Based Demonstration Projects led by PWD ..... 1-23
1-7	Land-Based Demonstration Projects (Planned for Construction in 2010)..... 1-24
1-8	WRT Restoration Projects Completed or Planned as of April 2009 ..... 1-28
<b>Section 2: Public Participation</b>	
2-1	Advisory Committee Organizations ..... 2-5
2-2	Advisory Committee Meetings ..... 2-5
2-3	Targeted Advisory Committee Meetings ..... 2-7
2-4	Public Meetings, Series #1 ..... 2-10
2-5	Public Meetings, Series #2 ..... 2-11
2-6	Public Meetings, Series #3 ..... 2-12
2-7	CSO Control Survey Results, Public Meeting, Series #3, FELS Center ..... 2-12
2-8	CSO Control Survey Results, Public Meeting, Series #3, Waterview Recreation Center ..... 2-13
2-9	CSO Control Survey Results, Public Meeting, Series #3, Northern Liberties Community Center ..... 2-15
2-10	<i>Green City, Clean Waters</i> Exhibit ..... 2-17
2-11	<i>Green City, Clean Waters</i> Public Meetings, Series #4..... 2-17
2-12	Targeted Public Meetings ..... 2-18
2-13	Tookany/Tacony-Frankford Watershed Partnership Outreach Events ..... 2-19
2-14	Darby Cobbs Watershed Partnership Outreach Events..... 2-23
2-15	Delaware Direct Watershed Partnership Outreach Events ..... 2-24
2-16	Model Neighborhoods and Civic Partners ..... 2-28
2-17	Examples of Model Neighborhoods Educational Materials..... 2-30
2-18	Green Neighborhoods through Green Street Survey - Popular Responses..... 2-32
2-19	Green Neighborhoods through Green Streets Feedback ..... 2-32
2-20	Green Stormwater Infrastructure Tours ..... 2-34
2-21	Storm Flood Relief Meetings ..... 2-35
2-22	<i>Green City, Clean Waters</i> Information Fair Materials..... 2-35
2-23	<i>Green City, Clean Waters</i> Exhibit Informational Posters..... 2-38
2-24	2008 Fairmount Water Works Interpretive Center Visitors ..... 2-39
2-25	Stormwater BMP Recognition Program Awards..... 2-40
2-26	2007 & 2008 Urban Watersheds Revitalization Conference..... 2-42
2-27	CSO LTCPU Backgrounders ..... 2-48
2-28	Bill Stuffers & Waterwheels ..... 2-49
2-29	Targeted Locations for Draft LTCPU Summary Report Distribution ..... 2-50

**Section 3: Characterization of Current Conditions**

<b>3-1</b>	Number of PWD Rain Gages within each Watershed.....	3-4
<b>3-2</b>	Metering Location IDs, Type and Deployment Dates for PWD Portable Flow Monitoring Program .....	3-5
<b>3-3</b>	Fall 2005 and Spring 2006 Deployment Dates, Locations and Meter IDs for Targeted Storm Flood Relief Areas .....	3-10
<b>3-4</b>	Outlying Community Permanent and Portable Metering Chamber IDs and Locations .....	3-15
<b>3-5</b>	Periods of Record for Flow and Water Quality Data .....	3-22
<b>3-6</b>	Tidal Schuylkill and Delaware River Historic Monitoring Locations .....	3-25
<b>3-7</b>	Summary of Physical and Biological Sampling and Monitoring Tookany/Tacony-Frankford Watershed.....	3-27
<b>3-8</b>	Summary of Water Quality Sampling and Monitoring in the Tookany/Tacony-Frankford Watershed.....	3-29
<b>3-9</b>	Water Quality Parameters Sampled in the Tookany/Tacony-Frankford Watershed .....	3-30
<b>3-10</b>	Summary of Physical and Biological Sampling and Monitoring in Darby-Cobbs Watershed through 2000 .....	3-32
<b>3-11</b>	Summary of Water Quality Sampling and Monitoring in Darby-Cobbs Watershed through 2000 .....	3-33
<b>3-12</b>	Water Quality Sampling Sites in Darby-Cobbs Watershed 1999-2000 .....	3-34
<b>3-13</b>	Darby-Cobbs Watershed Water Quality Parameters Sampled 1999-2000.....	3-35
<b>3-14</b>	Summary of Physical and Biological Sampling and Monitoring in Darby-Cobbs Watershed 2003 .....	3-36
<b>3-15</b>	Summary of PWD Water Quality Sampling and Monitoring in Darby-Cobbs Watershed 2003 .....	3-37
<b>3-16</b>	Water Quality Parameter Sampled in Darby-Cobbs Watershed 2003.....	3-39

**3-69** Fecal Coliform Concentration (CFU/100mL) Wet Weather, Swimming Season  
(1 May - 30 Sept.) (TTF CCR section 5.3.4.2 table 5.10 page 5-19) ..... 3-149

**3-70** Fecal Coliform Concentration (CFU/100mL) Wet Weather, Non-swimming Season  
(1 Oct. - 30 Apr.) (TTF CCR section 5.3.4.2 table 5.11 page 5-21)..... 3-149

**3-71** Summary of Benthic Macroinvertebrate Metric Scores from 12 sites in TTF  
Watershed and Reference Sites in French Creek Watershed, Spring 2004  
(TTF CCR section 6.4 table 6.4 page 6-15) ..... 3-153

**3-72** Fish Community Attributes, Sampling Information, and Metric Scores for 7 Sites in  
TTF Watershed and 3 Reference Sites in French Creek Watershed (TTF CCR  
section 6.3 table 6.2 page 6-8)..... 3-156

**3-73** USEPA Physical Habitat Assessment Results for 12 Sites in TTF Watershed,  
Spring 2004 (TTF CCR section 7.2 table 7.1 page 7-4) ..... 3-159

**3-74** Existing Documents Relevant to Characterization of Cobbs Creek Watershed ..... 3-160

**3-75** Water Budget Components (in/yr) (D-C CCR 2002 section 4.2 table 4-5 page 4-12) ..... 3-165

**3-76** Water Budget Components (MGD) (D-C CCR 2002 section 4.2 table 4-6 page 4-12) .... 3-165

**3-77** Data Used for Baseflow Separation (D-C CCR 2002 section 4.3.2 table 4.8 page 4-19) .. 3-166

**3-78** Summary of Hydrograph Separation Over the Period of Record  
(D-C CCR 2002 section 4.3.2 table 4-9 page 4-21) ..... 3-167

**3-79** Annual Summary Statistics for Baseflow and Stormwater Runoff (D-C CCR  
2002 section 4.3.2 table 4-10 page 4-21) ..... 3-167

**3-80** Dry Weather Water Quality Summary (1999-2000) – Parameters with Standards  
(D-C CCR 2002 section 5.2 table 5.5 page 35) ..... 3-170

**3-81** Wet Weather Water Quality Summary (1999-2000)– Parameters with Standards  
(D-C CCR 2002 section 5.2 table 5.5 page 35) ..... 3-172

**3-82** Continuous Water Quality Summary (2007-2008) – Parameter with Standards..... 3-174

**3-83** Continuous Wet Weather Water Quality Summary (2007-2008) – Parameter with  
Standards..... 3-174

**3-84** Continuous Dry Weather Water Quality Summary (2007-2008) – Parameter and  
Standards..... 3-175

**3-85** Sites with at least one Observed Exceedance of Water Quality Criteria (1999-2000)  
(D-C CCR 2002 section 5.2 table 5.7 page 39) ..... 3-176

**3-86** Metal concentrations collected during dry weather in Darby-Cobbs Creek Watershed  
(D-C CCR 2004 section 5.4.3.1 table 1 page 92). ..... 3-192

**3-87** Fecal coliform concentrations at the nine water quality monitoring sites  
(D-C CCR 2004 section 5.4.2.1 table 11 page 88) ..... 3-196

**3-88** Fixed interval fecal coliform samples collected in wet weather, 2003 (D-C CCR  
2004 section 5.4.2.2 table 12 page 89) ..... 3-197

**3-89** Fecal coliform concentrations recorded at the 5 wet weather monitoring locations  
during storm event 1, 2003 (D-C CCR 2004 section 5.4.2.2 table 13 page 90) ..... 3-198

**3-90** Fecal coliform concentrations recorded at the 5 wet weather monitoring locations  
during storm event 2, 2003 (D-C CCR 2004 section 5.4.2.2 table 14 page 90) ..... 3-199

**3-91** Biological condition results for RBP III (D-C CCR 2004 section 5.1.1 table 1 page 46).. 3-203

**3-92** Species list and relative abundance of fish taxa collected in the Darby-Cobbs Creek  
Watershed (D-C CCR 2004 section 5.2.1 table 2 page 55) ..... 3-207

**3-93** Characteristics of Tributaries in the Lower Delaware River Watershed ..... 3-224

**3-94** Delaware River Dry Weather Water Quality Summary Statistics and  
Exceedances 2003 – 2008 ..... 3-226

## Philadelphia Combined Sewer Overflow Long Term Control Plan Update

---

3-95	Delaware River Dry Weather Water Quality Problem Parameters 2003 – 2008 .....	3-230
3-96	Delaware River Wet Weather Water Quality Summary Statistics and Exceedances 2003 – 2008 .....	3-231
3-97	Delaware River Wet Weather Water Quality Problem Parameters 2003 – 2008.....	3-236
3-98	Delaware River Continuous Water Quality Summary Statistics and Exceedances 2003 – 2008 .....	3-237
3-99	Stream Gauging Data in the Schuylkill River Basin .....	3-256
3-100	Schuylkill River Continuous Water Quality Summary Statistics and Exceedances 2007 – 2008 .....	3-258
3-101	Schuylkill River Dry Weather Summary Statistics and Exceedances 2005 – 2007 .....	3-259
3-102	Schuylkill River Discrete Wet Weather Summary Statistics and Exceedances 2005 – 2007 .....	3-263
3-103	Schuylkill River at USGS 014745000 Fairmount Dam Summary Statistics and Exceedances 2003 – 2004 .....	3-267
3-104	Fish collection counts by species below the Fairmount Dam, Schuylkill River, during spring monitoring, 2002-2006.....	3-284
3-105	Fish community metrics for electrofishing surveys below Fairmount Dam, Schuylkill River, during spring migration (2002-2006).....	3-285
3-106	Fish passage counts by species at the Fairmount Dam Fishway, Schuylkill River, Pennsylvania, during spring monitoring. Species status codes are as follows: NA = native anadromous; NC = native catadromous; NR = native resident; IR = introduced resident; and I = introduced. ....	3-286
3-107	TTF Estimated Annual Pollutant Loads (lb except as noted) .....	3-291
3-108	Cobbs Estimated Annual Pollutant Loads (lb except as noted).....	3-292
3-109	Tidal Delaware Estimated Annual Pollutant Loads .....	3-292
3-110	Tidal Schuylkill Estimated Annual Pollutant Loads .....	3-293
3-111	Monthly Precipitation Inches Statistics for PIA Historical Record (1948-2006).....	3-295
3-112	Inter-event Time (IET) statistics determined for a range of minimum inter-event times (MIT) using PIA hourly precipitation (1948-2006).....	3-296
3-113	Philadelphia International Airport Average Annual Wet Weather Event Statistics (1948-2006).....	3-297
3-114	Temperature Statistics.....	3-299
3-115	Snowfall Statistics .....	3-299
3-116	Evaporation Statistics .....	3-300

### Section 4: Problem Analysis and Goal Setting

4-1	Weighted Assigned to Individual Goals by the Darby-Cobbs Watershed Partnership .....	4-24
4-2	Integrated Watershed Management Plan Goals.....	4-25

### Section 5: Overview of the Long Term Control Plan Update (LTCPU)

5-1	Ratio Information for Site 44 .....	5-6
5-2	Sites Chosen for Full RTK Analysis .....	5-19
5-3	Listing of the Sites Chosen as Templates and the Corresponding Ranges of Application .	5-20
5-4	Baseflow Modifier Values Used Within the SWMM4 Model to Adjust the Baseflow to Represent Upper and Lower Limit Baseflow Estimates .....	5-21
5-5	Trunk Monitor Calibration Information.....	5-27

# Philadelphia Combined Sewer Overflow Long Term Control Plan Update

---

5-6	Sewershed Areas and Percent Impervious Area Removed Due to Waterfront Sewer Separation Analysis.....	5-48
5-7	Length and Volume Data for the SEDD Tunnel Model .....	5-51
5-8	Length and Volume Data for the NEDD Tunnel Model.....	5-52
5-9	Summary of SWDD Tunnel Volume and Length Data .....	5-52
5-10	Results .....	5-58
5-11	Risk of Failure Matrix .....	5-65

## Section 6: Land-Based Control Measures (Source Controls)

6-1	Land-Based Options (Source Controls).....	6-2
6-2	Component Volumes of the Water Budget Comparing Results of Baseline Model Simulations to SRLC Simulations Representing Varying Levels of Impervious Area Served by Land-Based Controls for Each Drainage District.....	6-19
6-3	Distribution of Impervious Surfaces by Type.....	6-23
6-4	Distribution of Impervious Surfaces by Ownership/Management.....	6-24
6-5	Distribution of Parking Area (City-Wide Combined Sewered Area).....	6-24
6-6	Distribution of Building Area (City-Wide Combined Sewered Area) .....	6-24
6-7	Distribution of Waterfront Land .....	6-25
6-8	Recommendations for Land-Based Options.....	6-26

## Section 7: Water-Based Control Measures

7-1	Water-Based Options.....	7-1
7-2	Recommendations for Water-Based Options .....	7-5

## Section 8: Infrastructure-Based Control Measures

8-1	Infrastructure-Based Options.....	8-1
8-2	Improvement Options Summary.....	8-18
8-3	Improvement Options Summary.....	8-19
8-4	Improvement Options Summary.....	8-20
8-5	Design Flows Evaluated for each Wet Weather Treatment Train.....	8-22
8-6	TSS Concentrations for each Treatment Train and Flow Value.....	8-22
8-7	BOD Concentrations for each Treatment Train and Flow Value .....	8-22
8-8	Summary of Pros and Cons for Each Wet Weather Treatment Train.....	8-25
8-9	Design Flows Evaluated for each Wet Weather Treatment Train.....	8-27
8-10	TSS Concentrations for each Treatment Train and Flow Value.....	8-27
8-11	BOD Concentrations for Each Treatment Train and Flow Value .....	8-28
8-12	Summary of Pros and Cons for Each Wet Weather Treatment Train.....	8-32
8-13	Design Flows Evaluated for each Wet Weather Treatment Train.....	8-33
8-14	TSS Concentrations for each Treatment Train and Flow Value.....	8-33
8-15	BOD Concentrations for each Treatment Train and Flow Value .....	8-34
8-16	Summary of Pros and Cons for Each Wet Weather Treatment Train.....	8-37
8-17	Ratings Assigned to Infrastructure-Based Options.....	8-39

**Section 9: Development and Comparison of Alternatives**

9-1 Options Included in All Alternatives other than Full Sewer Separation..... 9-3

9-2 Additional Options Included in Green Stormwater Infrastructure with Targeted  
Traditional Infrastructure Alternative ..... 9-4

9-3 Additional Options Included in Green Stormwater Infrastructure with Increased  
Transmission and Treatment Alternative ..... 9-5

9-4 Additional Options Included in the Large-Scale Satellite Treatment ..... 9-6

9-5 Qualitative Factors for Green Stormwater Infrastructure with Targeted Traditional  
Infrastructure ..... 9-12

9-6 Qualitative Factors for Green Stormwater Infrastructure with Increased  
Transmission and Treatment Capacity..... 9-12

9-7 Qualitative Factors for Large-Scale Centralized Storage Alternative..... 9-13

9-8 Qualitative Factors for Large-Scale Satellite Treatment Alternative..... 9-13

**Section 10: Recommended Plan Elements**

10-1 TTF IWMP Target A Commitments ..... 10-35

10-2 CC IWMP Target A Commitments..... 10-38

10-3 Planning-Level Cost Estimates for Target A Options in the Delaware Direct Watershed10-40

10-4 Planning-Level Cost Estimates for Target A Options in the Tidal Schuylkill  
River Watershed ..... 10-44

10-5 TTF IWMP Target B Commitments..... 10-48

10-6 The CC IWMP Commitment to Target B..... 10-49

10-7 Planning-Level Costs for Target B Options in the Delaware Direct Watershed..... 10-50

10-8 Planning-Level Costs for Target B Options in the Tidal Schuylkill River..... 10-50

10-9 Proposed Implementation Schedule..... 10-68

**Section 11: Financial Capability**

11-1 PWD Capital Improvements Program (in billion \$) 2010-2029..... 11-4

11-2 US EPA Residential Indicator ..... 11-5

11-3 US EPA Permittee Financial Capability Indicator Benchmarks..... 11-8

11-4 City of Philadelphia, 2003-2008 Adjusted Real Estate Valuation, Real Estate  
Taxes Levied, and Collection Rates (in millions \$)..... 11-10

11-5 Comparison of Large City Tax Burdens (Family of Three with \$50,000 Income)..... 11-10

11-6 Philadelphia County Population Levels 1980-2035..... 11-12

11-7 Philadelphia County Employment Forecasts by Sector ..... 11-16

11-8 The Financial Capability Matrix at Year 2029 ..... 11-16

## SUPPLEMENTAL DOCUMENTATION

All Supplemental Volumes are located online at: <http://www.phillywatersheds.org/lcpu>.

- Volume 1** Public Participation Supplemental Documentation
- Volume 2** Triple Bottom Line Analysis
- Volume 3** Basis of Cost Opinions
- Volume 4** Hydrologic and Hydraulic Modeling
- Volume 5** Precipitation Analysis
- Volume 6** Stress Testing of the Northeast WPCP
- Volume 7** Stress Testing of the Southeast WPCP
- Volume 8** Stress Testing of the Southwest WPCP
- Volume 9** Analysis of Wet Weather Treatment Alternatives for Northeast WPCP
- Volume 10** Analysis of Wet Weather Treatment Alternatives for Southeast WPCP
- Volume 11** Analysis of Wet Weather Treatment Alternatives for Southwest WPCP
- Volume 12** TTF Watershed Comprehensive Characterization Report
- Volume 13** TTF Integrated Watershed Management Plan
- Volume 14** Darby-Cobbs Watershed Comprehensive Characterization Report
- Volume 15** Cobbs Creek Integrated Watershed Management Plan
