

Randy E. Hayman, Water Commissioner

May 12, 2022

Dear Philadelphia Water Customer,

I am writing to let you know that the Philadelphia Water Department (PWD) is planning a construction project in your neighborhood. The planned project will take place **on your street and on the sidewalks near your property.**

This project is a part of the City of Philadelphia's *Green City, Clean Waters* initiative – a program that keeps pollution out of rivers and creeks by using green tools to absorb stormwater that would normally overflow into our waterways during heavy storms. For more information about the program visit: <https://water.phila.gov/green-city>.

As part of this initiative, PWD is planning to install green tools at the following locations:

- **Stormwater Tree Trench on median between N Percy St and N 9th Street**
- **Stormwater Planter on Poplar St median across from N Randolph St.**
- **Underground Stormwater Storage on N 6th Street median near Poplar St.**
- **Rain Garden on N 6th Street median between Poplar St and Parish St.**
- **Underground Stormwater Storage on N 6th St median between Parish St and Brown St.**
- **Stormwater Bumpout at the intersection of N 5th St and Fairmount Ave.**

More information about the specific green tools planned for your area can be found on our project pages website found here: water.phila.gov/50272.

Construction is expected to begin in approximately **2-6 months**. However, please note that **this is an estimate** and the construction start date can be earlier or later than the anticipated timeline.

A follow up letter will be sent closer to the time of construction. In the meantime, please feel free to reach out to both myself and Amy Hopf (Amy.Hopf@phila.gov) with any questions about the project.

Sincerely,
Danielle Stollak
