

Do you need a fire flow test?

To order a flow test, customers are required to
submit a letter of request with a check for \$585
payable to "City of Philadelphia".

Any checks with the incorrect information
will be returned.

Step 1: E-mail letter of request and utility plan / sketch to wtr@phila.gov
Include "FLOW TEST REQUEST" in subject line

Step 2: Mail with tracking (USPS,
FedEx, UPS), the check and copy of
letter of request to:

Philadelphia Water Department
Attn: WTR FLOW TEST
1101 Market Street, 2nd Floor
Philadelphia, PA 19107

This letter of request must include:

- Property address including zipcode
- Contact information of the property owner, construction manager, or other primary contact for the site of interest (any contact that would let the PWD into an existing building or an active construction site)
- Location of existing or planned water connection (street name and/or service size)
- Name, telephone number and e-mail address where the hydrant flow test letter should be sent
- Check number

For questions regarding the submittal process, please e-mail Water
Transport Records at WTR@Phila.gov
