NOTES:

- L&I inspection is in accordance with the Philadelphia Plumbing Code.
- PWD inspection is in accordance with the Philadelphia Water Department Regulations.
- All inspections must be passed before L&I may release the Certificate of Occupancy.
- This plan was created to provide information about the jurisdiction for the Philadelphia Water Department (PWD) and License and Inspection (L+I) and contact information for the various units involved in inspecting plumbing features for private development. Questions about the plan can be directed to PWD_DevServices@phila.gov. Please contact the units listed in this document if you have specific questions about connections or scheduling inspections.
